

UT 2016 WEED TOUR

Crop Varieties 2016

Cotton

XtendFlex

Soybean

Enlist

Herbicides

Acuron (Syngenta) – combination of bicyclopyrone, atrazine, mesotrione (Callisto), and s-metolachlor (Dual Magnum)

Acuron Flexi (Syngenta) – combination of bicyclopyrone, mesotrione (Callisto), and s-metolachlor (Dual Magnum)

Abundant Extra (DuPont) - glyphosate

Afforia (DuPont) – combination of flumioxazin (valor), thifensulfuron (Harmony), and tribenuron-methyl

Armezon Pro (BASF) – topramezone (Armezon) and dimethenamid (Outlook)

Authority Elite (FMC) – combination of sulfentrazone (Authority) and s-metolachlor (Dual Magnum)

Authority Maxx (FMC) – combination of sulfentrazone (Authority) and chlorimuron (Classic)

Authority XL (FMC) – combination of sulfentrazone (Authority) and chlorimuron (Classic)

Brake (SePro) - fluridone

Brake FX (SePro) - combination of fluridone (Brake) and fluometuron (Cotoran)

Canopy Blend (DuPont) combination of S-metolachlor (Dual Magnum) and metribuzin (Tricor) and chlorimuron (Classic)

Cheetah (Nufarm) - glufosinate

Cheetah Max (Nufarm) – combination of fomesafen (Reflex) and glufosinate

DiFlex Duo (Bayer) – combination of dicamba and tembotrione (Laudis)

Diligent (DuPont) combination of flumioxazin (Valor) and rimsulfuron and chlorimuron (Classic)

Interline (UPI) – glufosinate

Instigate (DuPont) – combination of rimsulfuron and mesotrione (Callisto)

Elevore (Dow) – Halauxifen-methyl

Engenia (BASF) – new lower volatile dicamba formulation from BASF to be used with dicamba-tolerant crops

Enlist Duo (Dow) - glyphosate and low volatile choline salt of 2,4-D

Fierce XLT (Valent) – combination of pyroxasulfone (Zidua), flumioxazin (Valor), and chlorimuron (Classic)

Fultime NXT (Dow) – combination of acetochlor + atrazine

Glufos 280 (Willowood USA) – glufosinate

Sonic (Dow) – combination of sulfentrazone (Authority) and cloransulam (Firstrate)

MON 7698 (Monsanto) - low volatile dicamba

Resicore (Dow) – combination of acetochlor (Warrant), clopyralid (Stinger), and mesotrione (Callisto)

Realm Q (DuPont) – combination of mesotrione (Callisto) and rimsulfuron

Rowel (Monsanto) – flumioxazin (Valor)

Rowel FX (Monsanto) – flumioxazin (Valor) and chlorimuron (Classic)

Travallas (DuPont) – combination of fluroxypyr, metsulfuron (Ally), and thifensulfuron (Harmony)

Trivence (DuPont) combination of flumioxazin (Valor) and chlorimuron (Classic) and metribuzin (Tricor)

Sentrallas (DuPont) – combination of fluroxypyr and thifensulfuron (Harmony)

Solstice (FMC) combination of mesotrione (Callisto) and fluthiacet methyl (Cadet)

SureStart II (Dow) – combination of acetochlor (Fultime) and flumetsulam and clopyralid (Stinger)

Surveil (Dow) – combination of cloransulam (Firstrate) and flumioxazin (Valor)

Warrant (Monsanto) – acetochlor

Warrant Ultra (Monsanto) – combination of acetochlor (Warrant) and fomesafen (Reflex)
